Brief & scope

Floorplan

Brief, scope & budget overview

Existing apartment: 45m² one bedroom, top floor apartment in the Westerpark area of Amsterdam.

Brief: My client wanted to make her small apartment feel bigger, with either an extension, or a new layout that maximises the space without costing a fortune.

Project scope: Measure the apartment and draw the existing floorplan to scale, and provide multiple options of how to reconfigure the space to maximise the size of the existing footprint, and/or extend the apartment to increase the overall size of the apartment.

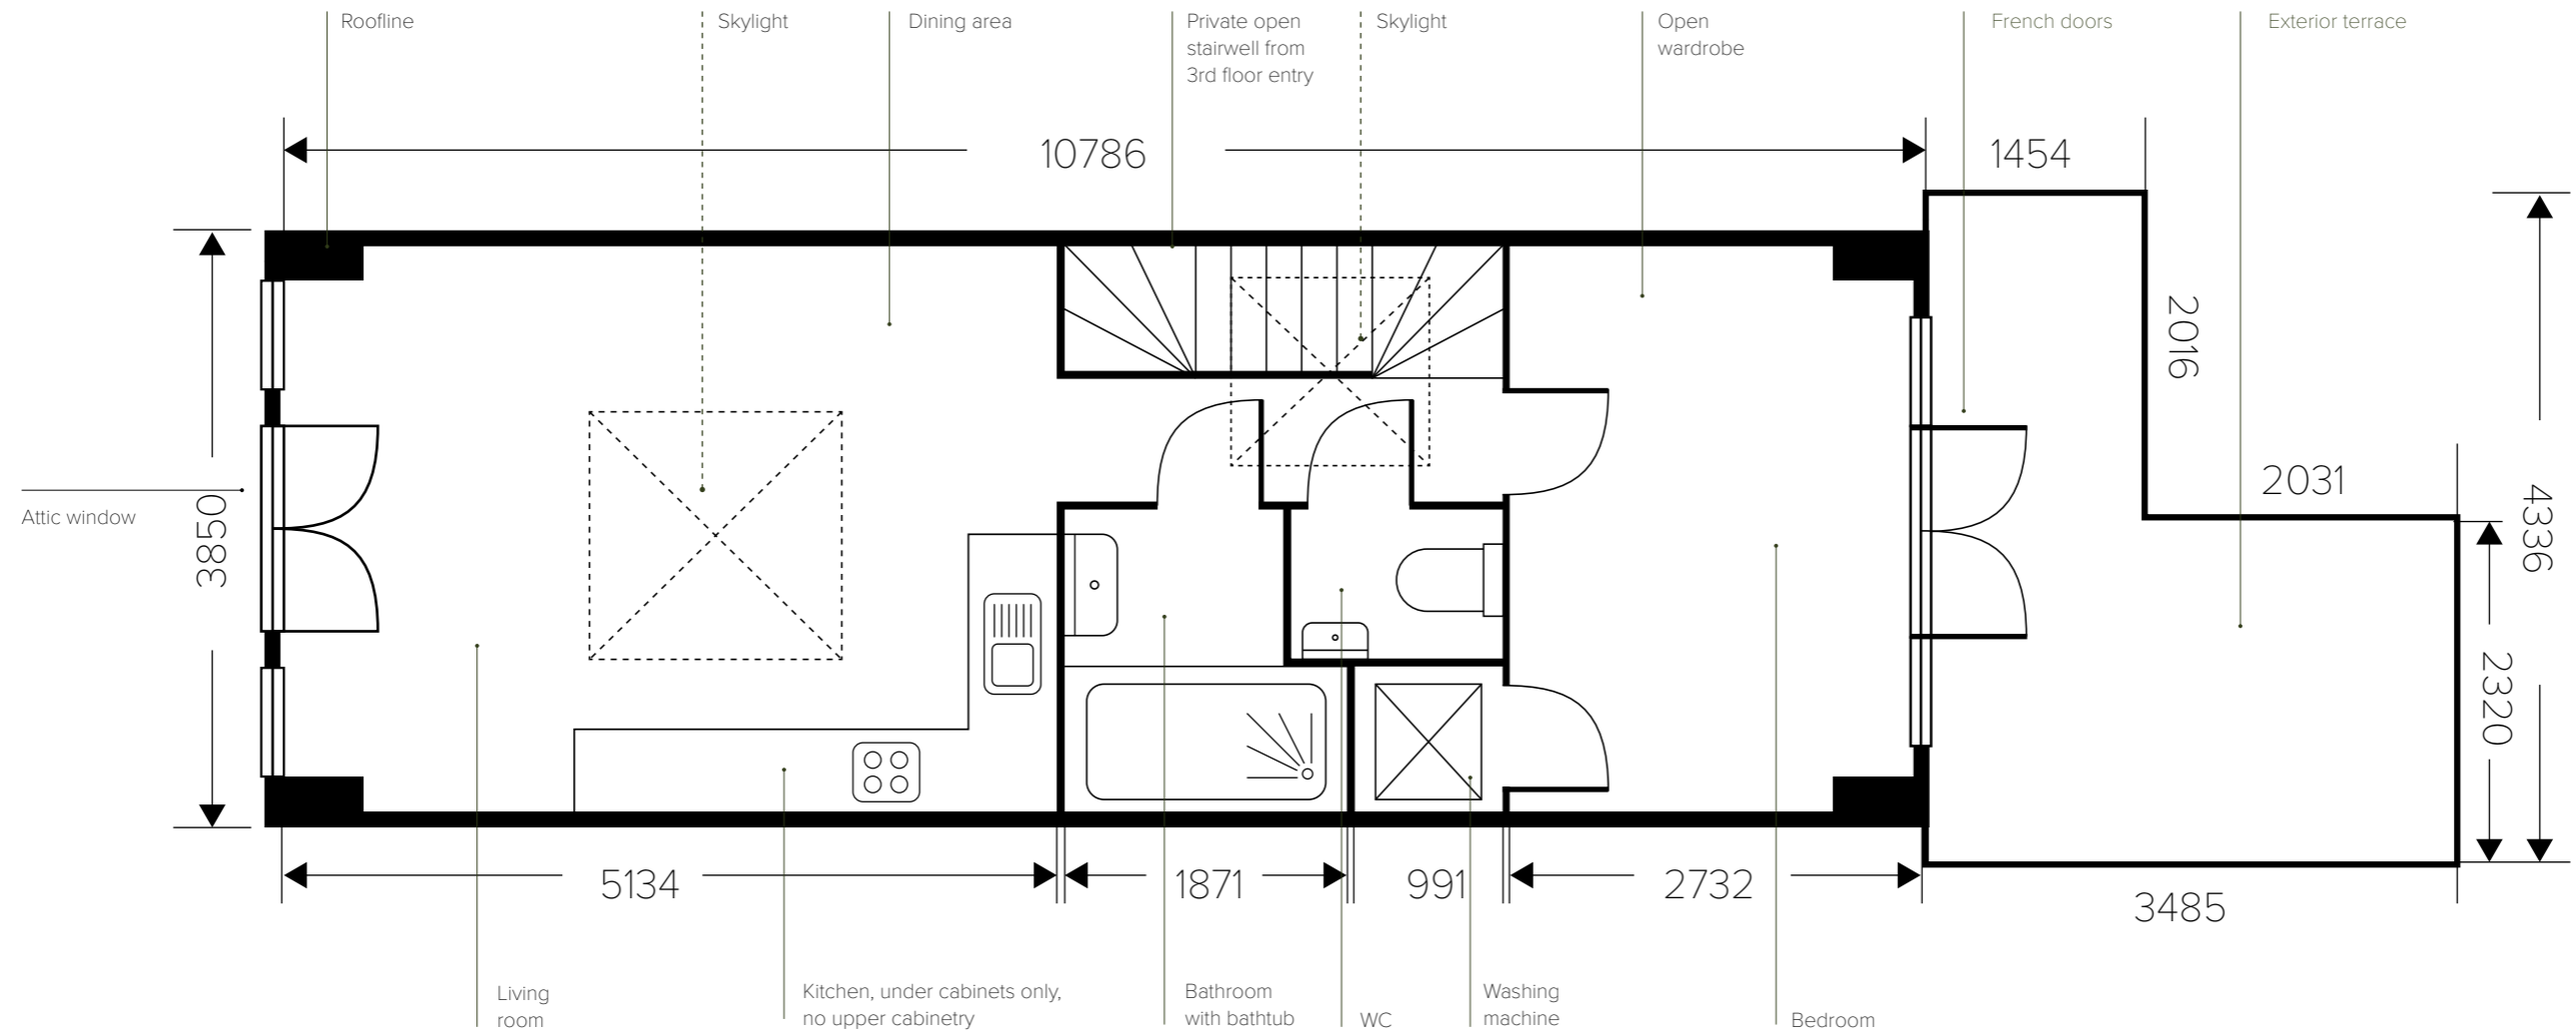

Interior design costs €1,000

Measuring the entire apartment and drawing floorplan (3 options)
